

## Graphic Design Intern

### INTERNSHIP DESCRIPTION:

The Connecticut Science Center has an excellent learning opportunity for an individual that may be able to provide college credits (depending on your school) and a fabulous experience, which will look great on your resume. While learning, this intern will provide creative, graphic and print production support to the Graphic Design Team supporting the Marketing Communications and Sales functions.

### QUALIFICATIONS:

- You need to be ambitious, a good communicator, not afraid to ask questions, can work without constant supervision, team player, pleasant phone manner, and most of all be a hard worker with integrity.
- Strong writing ability a must.
- High energy – will be learning with a small team.

### DUTIES & RESPONSIBILITIES:

- Will learn how to develop all collateral materials from creation to file preparation through execution (electronic or printed). Various projects include, but not limited to: guides, ads, brochures, flyers.
- Helps in preparations for launching new movies, traveling exhibits and events.
- Assist in planning, analyzing, and creating visual solutions.
- Solid knowledge of graphic services, computer design and print production.
- Assist in the preparation of and attend trade show and specialty events (evenings and weekends)

### REQUIRED QUALIFICATIONS:

- Graphic major or 1+ years of Graphic Design/ Layout and/ or Production experience
- Proficient in Adobe creative suites (In Design, Illustrator, Photoshop) and other graphic design/ video editing applications (FLASH, Final Cut Pro) to create professional layouts/designs through production.
- Solid HTML knowledge (ASP, CSS, JavaScript a plus)

A background in marketing or communications is preferred; knowledge of science is not necessary but the willingness to learn is a must. College credit where accepted and small stipend offered; business casual dress code.

**MacBook or PC laptop with CS5 is a must.**

To apply for this excellent learning opportunity, send a cover letter, resume, and digital portfolio that dazzles and wows to [spoczesny@ctsciencecenter.org](mailto:spoczesny@ctsciencecenter.org).
